WHO WE ARE

We are ready to give a lasting solution to your logistic needs

Since its inception in 2013, Diversified Logistic Solutions (DLS) continues to focus on expanding their unique liquid bulk transportation services. As a company, our dispatch team and drivers pride ourselves on our tested and proven abilities to serve the needs of customers both large and small. DLS has grown to be a well-respected logistics carrier based on its quality of service.

The family based operation continues to focus on not only their customers, but a commitment to innovation and excellence in all business tasks.

What began from an inspiration and the love of supply chain management shortly transpired to finding a niche market in the Non Hazardous Bulk Transportation. The Bujdosó family continues to put emphasis in delivering excellence every step of the way.

TESTIMONIALS

Travis Martinson-
LR & Industrial Services Manager

Diversified Logistic Solutions is a reliable carrier with an extensive fleet covering many lanes. Possibly the most important lane in logistics is communication, and that's one area Diversified excels. Drivers are polite and the equipment is always clean and ready to use. When Csaba says he will be there, you can be headache-free!

David Brown-
Transportation Broker

I've been working with the fine folks at Diversified for over a decade. I also regularly work with about 50 other carriers around the country, and by comparison I can say that Diversified is hands down the best. They have the knowledge, equipment and ethics to produce superior service and lasting relationships. Communication is one of their strong points that I truly appreciate, especially when things don't go as planned.
